**C-L-X® Okoseal-N® SP-OS**

**UL Type MC-HL and cUL Type ACIC-TC Instrumentation Cable**

Multiple Shielded Pairs or Triads - Individual and Overall Shield

600 Volts 90°C Rating MC-HL — 600/1000V Marine Cable

For Cable Tray Use - Sunlight Resistant - For Direct Burial

---

**Specifications**

Conductors: Bare soft annealed copper, Class B, 7-strand concentric per ASTM B-8.

Insulation: Flame-retardant Okoseal (PVC) per UL 83, 15 mils nominal thickness, 90°C temperature rating.

Insulation Jacket: Nylon per UL 83, 4 mils nominal thickness.

Conductor Identification: Pigmented black and white in pairs, black, white and red in triads.

Group Shield: Aluminum polyester tape overlapped to provide 100% coverage, and a 7-strand tinned copper drain wire, same size as conductor.

Inner Jacket: Black, flame-retardant Okoseal per UL Standard 1569. A rip cord is laid longitudinally under the jacket to facilitate removal.

C-L-X Sheath: A close-fitting, impervious, continuously welded and corrugated, aluminum sheath provides physical protection against mechanical damage as required in NEC Section 725-8. Additionally, C-L-X meets UL 1569 provides complete protection against moisture, liquids, and gases, has excellent mechanical strength, and provides equipment grounding through the sheath.

Outer Jacket: Black, flame-retardant Okoseal per UL Standard 1569.

Classifications: UL Listed as Type MC-HL Articles 501, 502, and 503 of the National Electrical Code.

Applications

Okonite C-L-X type SP-OS (shielded pairs or triads - overall shield) instrumentation cables are designed for use on Class 1 Remote-Control Signaling circuits or where a 600V cable is desired, as instrumentation, process control, or computer cable transmitting signals at levels above 100 millivolts in circuits where maximum noise protection is required. Protection from interference among groups as well as external sources is provided by individual group shields as well as an overall cable shield. For use indoors or outdoors; wet or dry locations; in cable trays’ in raceways; supported by a messenger wire; for direct burial; in Classes I, II, and III, Divisions 1 and 2 and Class I, Zones 1 and 2 hazardous locations per NEC Articles 501, 502, 503 and 505; in Zone 2, Class II Div 2, Class III Div 1 and Class III Div 2 per CEC.

The isolated individual shields over each pair, when properly grounded, prevent crosstalk or capacitive coupling between adjacent pairs which occurs with ac signals, particularly the pulse type.

The overall shield eliminates most of the static interference from the electric field radiated by power cables and other electrical equipment. The C-L-X sheath provides physical protection against mechanical damage as required in NEC Section 725-8 as well as complete protection against moisture or gases entering the cable.

For dc service in wet locations, X-Olene insulation is recommended.

---

**Product Features**

Individual units are completely isolated for maximum noise rejection.

C-L-X enclosure permits installation in cable tray containing light and power cables without a barrier separator.

Lower installed system cost than conduit or EMT systems.

Suitable for low temperature installation to -40°C.

---

**Applicable Standards**

- UL listed for cable tray use, direct burial, in ducts, and sunlight resistant.
- American Bureau of Shipping Type approved as CWCMC Type MC-HL.
- API Standards 14F and 14FZ.
- ASTM B-8
- OSHA Acceptable
- UL 2225 Type MC-HL, UL 83, UL 1309 (CWCMC) Marine Shipboard, UL 1569
- UL certified to IEEE 1580 - Marine Shipboard Cable rated 600/1000V.
- NEC Articles 501, 502, 503, 504 and 505 for Classes I, II, and III, Divisions 1 and 2, Hazardous Locations.
- NPLF pr NEC Code Article 760.
- CSA C22.2 No. 230 Type TC
- CSA C22.2 No. 239 Type ACIC
- cUL Type ACIC-TC Complies with CEC Zone 2, Class II Div 2, Class III Div 1, Class III Div 2 Hazardous Locations.

---

**A** Bare Stranded Copper Conductor

**B** Okoseal Insulation/Nylon Jacket

**C** Tinned Stranded Copper Group Drain Wire

**D** Aluminum/Polyester Tape

**E** Twisted, Shielded Pairs/Triads

**F** Tinned Stranded Copper Drain Wire

**G** Aluminum/Polyester Tape

**H** Rip Cord

**J** Inner Black Okoseal Jacket

**K** Impervious, Continuous, Corrugated Aluminum C-L-X Sheath

**L** Outer Black Okoseal Jacket

*Typical Value

### Cross-sectional area for calculation of cable tray fill in accordance with NEC Section 392.22.

### Jackets - Optional jacket types available - consult local sales office.

### Copper or bronze C-L-X available on special order.

To order C-L-X Type SP-OS without the outer Okoseal jacket (not "HL" listed), change the sixth digit of the catalog number from 3 to 1, for example to order 1 pr. 20 AWG with a bare aluminum C-L-X, the catalog number would be 564-10-1212.

### Length Tolerance: Cut lengths of 1000 ft. or longer are subject to a tolerance of + \( \pm 10\% \) less than 1000 ft. + \( \pm 15\% \)
